

HDR Magic NCPP July 14, 2009 by Wayne Miller

Wayne Miller is a CPP (Certified Professional Photographer) in portraits and commercial photography and has a residential studio in Clayton, CA. He has been passionate about photography since a very early age as well as the new photographic technology.

HDR Magic: This presentation will cover some of the soup and nuts of HDR High Dynamic Range photography which has helped him win several print competitions at NCPP. It seems that HDR is a huge buzz word in both the public sector and among photographers. If you have never tried HDR or have tried and didn't like the results, or want to produce a WOW HDR image then this presentation is for you. In today's competitive market we need to differentiate our photography from the next guy, and HDR is one of these tools.

Want to WOW your clients? Want to have images that POP? Want to know some of the deep dark secrets of HDR? Want to break that creative block as an artist? Want to know what the hell HDRIR means?

Then RSVP to reserve your spot for this HDR Magic presentation, and if you have any specific question please feel free to send them to Wayne at fineart@wmpphotos.com and he will cover them at the meeting. Also Wayne is doing an all day hands on HDR Workshop Saturday Sept. 26th in Clayton if you miss the meeting of just learn better with a hands-on approach. <http://www.wmpphotos.com/Seminar/HDR.pdf>

Northern California Professional Photographer meet at Walnut Creek Marriott Hotel at 2355 North Main Street meeting starts at 7pm. NCCP members are free, Guest fee is \$20, Affiliate \$10 w/current membership card (for this special meeting). <http://www.ncpponline.org/new/>
